

Premier Supplier of Automation & Controls Products

► Your Source for the Industry's Leading Brands

HMI/PLC • Safety • Sensors • Valves • VFDs

Plus, we now offer products from a bigger selection of manufacturers!

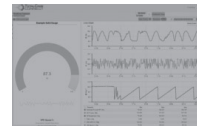

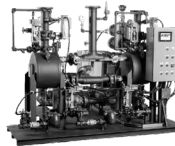

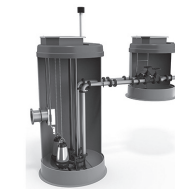

► Standard Bots Robotic Solutions

- The Standard Bots R01 is the most advanced, yet most affordable, six-axis robot made in the USA today.
- Plug and play technology makes it the simplest robot to set up. R01 integrates directly with conveyors, 7th-axis slides, linear actuators, vertical lifts, safety devices and much more. No drivers, no configurations.
- Intuitive touchscreen interface allows you to create new tasks or scale a set-up in a matter of minutes with simple visual programming that involves zero code.

► Engineered Solutions

- Packaged Lift Stations
- Water Treatment Solutions
- TotalCare Connect - Remote Monitoring Solutions
- Mobile Engineered Solutions
- Compressed Air Piping Systems
- Centrifugal Compressor Control Systems
- Custom Air Handling Units
- Thermal Solutions

► Industrial Electronic Repairs & Remanufactured Parts

- Vision Systems, Barcode Readers and Safety Products
- Robotic Controls
- CNC Controls
- VFDs
- Printed Circuit Boards
- Monitors and Industrial Terminals
- PLCs
- Marposs Heads, Amplifiers, Probes & Monitors
- Servo & Spindle Motors
- Surplus Equipment Sales (Tested and Warranted)
